

Filtoclear

- Innovative, effective pressure filter range with integrated UVC clarifier
- Extremely user-friendly due to Easy-Clean-technology
- Sealed pressure container – thus the filters can be Almost completely buried in the ground and can Supply higher- elevation watercourses
- Polluted water is pumped into a sealed, enclosed system, where a working pressure of 5 m head height can be built up

All Filtoclear pressure filters are equipped with a multi-directional valve for cleaning and flushing out, and with an integrated cleaning mechanism for filter foams. In addition they are equipped with an indicator light that provides a visual check of Bitron UVC function and a cable length of 5m. OASE provides a clear water guarantee of 3 years on the Filtoclear range of pressure filters if they are used properly.
