

Aqua Activ

Natural bacteria for ponds

The garden pond or fish pond is a delicate eco-system that requires protection. Unlike in a natural situation, it is sometimes necessary to give it a helping hand. Pond water is not just pure water - it contains oxygen and carbon dioxide, as well as nutrients, micro-organisms and much more. It is these elements that make it living pond water and thus a habitat for plants and animals.

However, artificial ponds are influenced by many environmental factors. Often ponds are too small for their fish stock. Acid rain, sun leaves or other organic pollutants impose added stress on the pond eco-system. The requisite balance is restored and supported with **OASE aqua active**. For sustainable healthy, living water.

CODE	DESCRIPTION	VOLUME	BRIEF
OAACC	Crystal Clear	500ml for 5000L pond	Clears green murky pond water, especially algae bloom
OAACCB	Crystal Clear Bulk	5000ml for 50,000L pond	Clears green murky pond water, especially algae bloom
OAASB	Starter Bacteria	500ml for 10,000L pond	Supplies vital active micro-organisms to 'sterile' new pond water
OAASBB	Starter Bacteria Bulk	5000ml for 100,000L pond	Supplies vital active micro-organisms to 'sterile' new pond water
OAAHP	Hardness Plus	500ml for 5000L pond	Increases carbonate hardness in exhausted water, stabilizes calcium/carbonic acid balance
OAAO	Oxygen Stabilizer	500ml for 10,000L pond	Increases oxygen content in pond
OAAAB	Biostable Regulator	2kg 500ml for 10,000L pond	Keeps pond healthy, contains alder-bark & barley straw
OAAAB	Biostable Regulator Bulk	10kg 500ml for 10,000L pond	Keeps pond healthy, contains alder-bark & barley straw
OAASA	String Algae Control	500ml for 10,000L pond	Removes & prevents string algae; blue-green algae; slime algae & duckweed
OAASAB	String Algae Control Bulk	5000ml for 100,000L pond	Removes & prevents string algae; blue-green algae; slime algae & duckweed
OAAASR	Silt Remover	500ml for 10,000L pond	Conversion & prevention of organic silt
OAAATK	Test Kit	-	Reagents for testing pH value; total hardness; carbonate hardness; nitrite
OAAATKP	Test Kit Plus	-	Reagents for testing nitrate; phosphate; ammonium; ammonia
OAAQAS	Quick Sticks	-	Test strips for testing pH value; total hardness; carbonate hardness; nitrite; nitrate
