

Optimax

-  Unique, economical gravitation filter pump, ideal for use in koi ponds and swimponds
-  Energy efficient pump with increased flow capacity
-  A new hydraulic concept ensures high circulation volumes

All Optimax gravitation filter pumps have a cable length of 10 m, and can be submersed or dry-installed below water surface level. The full guarantee of 3 years can be extended by an additional 2 years on request for a total of 5 years. The pumps are suitable for use in swimponds and bathing ponds.
