Standard weir

Box weir

Open weir

- Clear, smooth, sheet of water is a beautiful addition to a pool or water feature. Easy to install.
- Operates with flow rates from 800 ~1200 litres / hour per 100mm of weir width
- Strong 3mm thick Stainless Steel of high grade 316 - with polished lip.
- Quiet laminar flow, when used at heights below 900mm

OUR EXCLUSIVE DESIGNS

- Many custom water features designed to your specifications
- Designed and made to order in various widths or lengths.
- Open Weirs are Ideal for gravity fed systems

Inline Cone strainer

Used to stop debris from blocking the weir
