

PoolSpa

& filtration group pty ltd

Leading fountain engineers and product specialist for over 40 years

We are South Africa's premier and longest standing importers, suppliers, designers and contractors to the fountain technology and water feature industry. Founded over 35 years ago by the inspirational Ian Hopkins, we have a deep-rooted African footprint and we pride ourselves on maintaining Global standards. Skilled and passionate individuals make up our two divisions. Supplies and Contracts led by Brian Algar. We have also partnered with Pool Spa & Filtration Supplies KZN led by Brandon Van Vuuren and Joanne Van Vuuren.

We are founded on values, built on quality, sustained on relationships.

We are South Africa's Leading Fountain Engineers and product specialists for over 40 years

While Pool Spa & Filtration Supplies may not build the final product, we do supply the parts that keep it running, enable cost effective maintenance and ensure the smiles return season after season.

Our extensive range of products are available through our retail store, warehouse and our Web shop.

Please email info@poolspa.co.za for more information.

We do what we do to sustain smiles

We are the technology, design, installation and maintenance division of the Pool Spa and Filtration Group. Not only do we maintain existing pools, ponds and fountains, we are trusted to design and install the most advanced fountain and water feature technology with incredible results. Working hand in hand with landscape architects and property developers both commercial and residential, we create inspirational spaces.
